

Active Boost - AVT24

Key Features: A complete nutrient additive.

Pack Size: 1kg, 5kg & 15kg

Active Boost - AVT24 from Target Baits is an innovative new product designed to help support immune function, wound healing, tissue repair and overall health.

Where angling pressures become high carp will actively seek out nutritional baits which offer a complete balanced, nutritional profile in their diet. When Active Boost - AVT24 is added to your base mix it will provide optimum nutritional performance, to help benefit the carp's body for happier, healthier fish.

Such baits can become habit-forming with seemingly additive powers. As the dietary benefits are experienced by the fish, the fish with the largest energy efficiency and dietary requirements push out the smaller size carp, when the bait is repeatedly introduced over a period of time. At this stage the largest fish tend to monopolize the bait and will eat it in preference to other food and less nutritionally balanced baits.

Supplying a high nutritional value Active Boost - AVT24 will help to consistently produce big carp again and again.

Specification

Lysine	20%
Methionine	10%
Threonine	13.75%
Tryptophan	2.50%
Protein	42%
Iron	7,500 mg
Copper	150 mg
Manganese	620 mg
Zinc	1,480 mg
Iodine	50 mg
Selenium	10 mg
Calcium	8.25%

Vitamin A	500,000 iu/kg
Vitamin D3	100,000 iu/kg
Vitamin E	12,500 iu/kg
Vitamin B1	500 mg
Vitamin B2	800 mg
Vitamin B6	1,000 mg
Vitamin B12	2.50 mg
Vitamin C	43,750 mg
Vitamin K	300 mg
Nicotinic	4,000 mg
Pantothenic	2,000 mg
Folic Acid	250 mg
Biotin	50 mg
Choline	30,000 mg

Usage Rate

1Kg per 50Kg feed/bait mix. (20 Grams Per Kg)
