Product Description

Blended using high quality ingredients Target Baits NutMilk Base Mix has been formulated to help create a highly attractive mix, that carp will seek out time and time again.

Containing a combination of Roasted Peanut Meal alongside Tiger Nut Flour this gives the NutMilk Base Mix a deep nutty aroma, and is rich in oils providing an excellent energy source. Alongside the combination of nuts we have also included a blend of milk powders including WPC35, Lambs Milk Replacer and Skimmed Milk Powder proving a rich creamy flavour.

These milk powders provide a useful protein source and are highly digestible, helping firm up baits and smooth out rolling.

Brocacef Yeast and Brewer's Yeast are included which not only help to enhance the flavour, but also provide a highly nutritious source of B-Group Vitamins and a good amino acid profile.

Also included is a touch of Seaweed Meal to help add some crunch.

Recommended additives: AVT24 Carp Complete, Vanilla Flavour Powder, Nyjer Seeds
