

TARGET

FLAKED PEAS

Key Points:

- ✓ Micronised Flaked Peas

Product Description

Flaked peas are a palatable source of protein and energy; micronisation helps to improve their digestibility. Peas are a source of protein rich sulphur amino acids. Micronized Peas can improve production parameters and improve feed conversion due to greater availability of nutrients and a higher energy than other forms.

Country of Origin: UK

Specification

Dry Matter (%)	86
Moisture (%)	14
Protein (%)	21
Oil (%)	2.1
Fibre (%)	5.5
Ash (%)	3
